

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS 2D BOMB WING (AFGSC)
BARKSDALE AIR FORCE BASE LOUISIANA

18 January 2021

MEMORANDUM FOR DISTRIBUTION

FROM: 2 BW/CC

SUBJECT: COVID-19 Installation Policy Guidance – Change 10.1

References: (a) 2 BW/CC Memo, 18 January 2021, *Renewal of Declaration of Public Health Emergency – COVID-19*.
(b) SECDEF Memo, 19 May 2020, *Guidance for Commanders on Risk-Based Changing of Health Protection Condition Levels During the Coronavirus Disease 2019 Pandemic*.

1. Public safety remains of the utmost importance at Barksdale Air Force Base (BAFB). This memorandum supplements reference (a), which renewed BAFB's Public Health Emergency (PHE) declaration until 5 April 2021 or until I determine public health data indicates the risk for sustained community transmission is mitigated, whichever may occur first. In accordance with references (a) and (b), I have made the risk decision, in coordination with my Public Health Emergency Officer, to maintain BAFB's Health Protection Condition level at **BRAVO++**. This decision is necessary due to local conditions both on and off installation regarding COVID-19 public health data. These actions are in line with our state and local authorities; moreover, Louisiana's move back to a modified Phase 2 reinforces the need for individuals to practice preventive measures. **These practices are not to be ignored or altered regardless of a member's or dependent's vaccination status (full, partial, awaiting, and declined)**

2. As the spread of COVID-19 in Northwest Louisiana is not slowing down, I continue to order the following actions for all individuals accessing BAFB:

a. Maintain strict social distancing (6 feet or more) and practice good hygiene:

(1) Wash hands frequently with soap and water for at least 20 seconds; use hand sanitizer if soap and water are not available.

(2) Clean high-touch surfaces and high-traffic areas frequently.

(3) Avoid touching your face.

(4) Sneeze and cough into tissue, elbow, or a mask.

b. **Face coverings are mandatory at all times when inside any facility or building on the installation**. Below are the allowed exceptions:

(1) Any individual who will not come in contact with any other person (outside immediate household members) or who will be able to maintain 6 feet or greater physical distancing from any other individual.

(2) Any child under the age of 8; however, all children between 2-7 years old are strongly encouraged to wear a face covering.

(3) Any individual with a medical condition that prevents the wearing of a face covering.

(4) Any individual consuming food or drinks.

(5) Any individual seeking to communicate with someone who has or is suspected of having a communication disorder.

(6) Any individual giving a speech for broadcast or an audience, such as instructors, facilitators, or speakers at an event **and able to** maintain 6 feet distance.

(7) Any individual temporarily removing his/her face covering for identification purposes.

(8) Individuals on a weapons loading crew, while performing or supervising loading operations, are approved for OPTIONAL wear of marks.

c. Limit gatherings inside your residence and maintain 6 feet social distancing. Wear a face covering when in contact with members outside your immediate household. Limit or refrain from visiting people in assisted-living facilities, nursing homes and hospitals.

d. Official functions, classes, meetings, gatherings, and training sessions will be limited in size, preferred to fewer than 50 people in any indoor space at the same time, and maintain 6 feet physical distancing. When in-person gatherings must take place, arrange seating to avoid close contact with others. All personnel must maintain at least 6 feet spacing and wear face coverings. Remove or block off seating as necessary to ensure 6 feet spacing.

e. Limit or cancel in-person meetings, events and gatherings, and hold virtual meetings to the maximum extent possible.

f. Outdoor activities will be limited in size and maintain 6 feet physical distancing, unless actively participating in a recreational sport.

g. Participation in, and observance of, indoor and outdoor team sports is authorized on- and off-base to enhance physical fitness and wellness opportunities, but must be conducted in a manner to minimize COVID transmission risk. Allowed activities include, but are not limited to, playing, coaching, serving as a referee, and being a spectator. Participants and observers must:

(1) NOT participate in team sports if experiencing symptoms of COVID-19 or on ROM, Quarantine, or Isolation status.

(2) Wash or sanitize hands before and after play; the wearing of gloves is highly encouraged.

(3) Not share personal equipment (*e.g.*, water bottles, towels, face shields/helmets); make concerted efforts to sanitized shared equipment (*e.g.*, basketballs) before, during, and after play.

(4) The wearing of masks while in play (or serving as a referee) is highly encouraged.

(5) While not actively engaged in play, minimize large sideline crowds by maintaining 6 feet between other players and spectators, and don a mask.

(6) Minimize direct person-to-person contact.

h. The BX and Commissary are open to all beneficiaries with BX and DeCA privileges so long as the number of patrons in BX and Commissary facilities do not exceed 50% facility capacity.

i. All Barksdale AFB Services, MWR activities, and indoor fitness facilities (gyms) are open to all beneficiaries with base access. All Services and MWR facilities are limited to 50% of their total occupancy and will enforce strict 6 feet physical distancing. The base's indoor fitness facility running track is open for use, but at a reduced occupancy and mandated mask wear. **Indoor group exercise classes (*e.g.*, Spin, HIIT, yoga) remain unauthorized; however, policies are rapidly changing – see postings at the facility for updates on openings, distancing, mask wear, etc.**

j. All in-person dining on-base, like the BX Food Court and the BUFF Club, **may operate at 50% capacity**. The sale and consumption of alcohol at authorized on-base locations is permitted, but physical distancing still applies.

k. Religious and chapel services on-base may operate at 75% capacity.

3. For Commanders and supervisors, the use of COVID risk assessment tools are encouraged in discussing the risk of transmission with your Airmen. Below are two calculators/tools to use in assessing the risk for a designated group size and COVID prevalence in the specific location.

a. For reference, consider using the COVID-19 Event Risk Assessment Planning Tool at <https://covid19risk.biosci.gatech.edu/>. This tool can be used when authorizing passes and leave, as well as assessing risk to activities within the local area.

b. Additionally, consider using in combination the point prevalence chart at <https://stevenhorn.gitlab.io/covid-prevalence/> to determine the point prevalence for your intended location. Insert that number and the approximate number of people (group size) into the “Likelihood of Undetected COVID-19 Infection” calculator at <http://diaenterprisepublic.canadacentral.cloudapp.azure.com/COVID19MissedInfections.html>. Hover over the graph at day 0 (zero) to see the probability of missing at least one infected case in the designated group size and point prevalence.

4. Additional **off-base requirements for 2d Bomb Wing** active duty **military personnel**, including reserve members on Title 10 orders; and while not required for other BAFB tenets, all are highly encouraged.

a. Military members will cease going indoors at restaurants and entertainment establishments (such as clubs, bars, casinos, etc.) that serve food and/or beverages. This is due to the increased risk

of exposure to COVID-19 and the impracticality of wearing face coverings in these settings. (Outdoor seating is permitted. Take-out dining is encouraged.) If it is necessary to briefly go inside to pay or use the restroom, you must wear a face covering.

b. Face coverings shall be worn when inside a commercial establishment or any other building or space open to the public, whether indoor or outdoor. This shall include public or commercial modes of transportation. Refer to exemptions from paragraph 2.b.

c. Practice good hygiene as described in paragraph 2.a.

d. For military member travel, leave/pass travel from BAFB is now permissible under the following conditions:

(1) For travel beyond one-hour of the military member's primary residence during leave/pass periods:

(a) Sq/CC or designated supervisor(s) are the travel approval authority.

(b) Before granting leave, the member's supervisor(s) must conduct a risk assessment and health status of the military member requesting leave/pass beyond 1-hour from the member's primary residence.

(c) Supervisors will conduct a mandatory pre-departure briefing with the member prior to departure. This is documented on the "COVID-19 Pre-Departure Worksheet." The member's supervisor must sign the form. Copies of the pre-departure briefing will be maintained by the unit for pass periods and uploaded by the member into LeaveWeb for leave.

(d) Members should not travel if they are experiencing symptoms consistent with COVID-19 or if they have been in close contact with someone who tested positive for COVID-19 within the last 14 days.

(2) Members will comply with all DOD, Federal, State, and local restrictions while in leave/pass status. DOD guidance and resources can be found at <https://www.defensetravel.dod.mil/coronavirus>. State and local restrictions can usually be found on the respective state's Department of Health website.

(3) Regular and special pass travel are limited to 8-hour driving radius from BAFB.

e. For BAFB dorm residents:

(1) Limit gatherings in individual dorm rooms to ensure 6 feet physical distancing is maintained.

(2) Limit dayrooms to 50% occupancy and maintain 6 feet physical distancing.

f. These directives are effective 18 January 2021 at 1200L through 5 April 2021 or until I determine public health data indicates sustained transmission is no longer evident, whichever may

occur first. I or a senior commander in my chain of command retain the authority to renew, modify, or terminate these directives at any time.

g. A military member who fails to obey the orders in this policy may be punished under Article 92 for failing to obey a lawful order or under any other applicable portion of the Uniform Code of Military Justice. DOD civilians who fail to follow this policy while on the installation may face adverse employment action. Any person who fails to follow this policy or is found to be potentially harmful to the health or safety of the individuals who live and work on this installation may have his or her authority to access BAFB limited or revoked. This includes dependent civilians who currently reside on the installation.

5. Civilian employees, contractors, family members, and military dependents are expected to adhere to guidelines issued by state and local authorities. Further, to protect the public health and safety of the public, yourselves, and our military community; and to mitigate the impact of COVID-19, and disrupt the spread of the virus, I highly encourage all civilian employees, contractors, family members, and military dependents to voluntarily adhere to the actions described in paragraphs 3.a through 3.d.

6. Those who are at high-risk from COVID-19 are highly encouraged to stay at home except for essential activities like acquiring food, supplies, or medical care.

7. Reference the latest DOD Guidance for all PCSs, TDYs, deployments, and leave. All travel is subject to DOD Force Health Protection Guidance.

8. A list of COVID-19 symptoms can be found on the Centers for Disease Control's website (www.CDC.gov). If you or any member of your family begin to present symptoms, DO NOT go to the 2 MDG Clinic without first calling the appointment line (318-456-6555). If you have been in contact with anyone presenting symptoms, we are asking you to inform your supervisor or Commander, and contact 2 MDG Public Health to determine what procedures need implementing.

**Note: Additional slides can be found in Attachment I.*

9. For the most up-to-date installation, Services, and MWR information, please reference the USAF Connect App, the 2d Bomb Wing website (<https://www.barksdale.af.mil/COVID-19-BAFB/>), and the BAFB Facebook page (<https://www.facebook.com/TeamBarksdale/>).

10. These actions are necessary to limit the spread of COVID-19, protect service members and families, safeguard national security, and support a whole of government approach. Commanders will lead their units in a manner that maximizes public health and safety while minimizing mission impacts.

MARK C. DMYTRYSZYN, Colonel, USAF
Commander

Symptoms of Flu and COVID19

Influenza (Flu) Symptoms

- Fever* or feeling feverish/chills
- Cough
- Sore throat
- Runny or stuffy nose
- Muscle or body aches
- Headaches
- Fatigue (tiredness)
- Some people may have vomiting and diarrhea, though this is more common in children than adults.

**It's important to note that not everyone with flu will have a fever.*

<https://www.cdc.gov/flu/symptoms/symptoms.html>

COVID19 Symptoms

- Fever or chills
- Cough
- Sore throat
- Congestion or runny nose
- Muscle or body aches
- Headache
- Fatigue (tiredness)
- Nausea or vomiting
- Diarrhea
- Shortness of breath or difficulty breathing
- New loss of taste or smell
- <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>

How to Access Medical Care

Emergency/Immediate treatment

Chest Pain – Excessive Bleeding – Severe cuts or burns – Broken Bone – Shortness of breath
- Poisoning

Call 911/Go to ER

Non-Urgent

Secure Message your PCM team or Schedule Appointment online

www.tricareonline.com

Non-Urgent Same Day Appointments

During normal business hours (0730-1630) please stay home and try 456-6555 for any COVID19/Flu type symptoms prior to reporting to work or a medical clinic

*Cold/Flu symptoms - Ear/Eye infection - Mild musculoskeletal pain - Symptoms less than 7 days - Fever

**Central Appointment Line
318-456-6555**

* Phone clerk will leave a message for PCM or will schedule an appointment

After Hours Advice line

After hours is defined as anytime the clinic is closed (weekends - holidays)

*Cold/Flu symptoms - Ear/Eye infection - Mild musculoskeletal pain - Symptoms less than 7 days - Fever

**Call Nurse Advice Line (NAL)
1-800-TRICARE/874-2273**

*Registered nurse will triage and help you determine if you need the attention of a medical professional. **ANYTIME DAY OR NIGHT.**

*Required prior to DCC visit for Active Duty to ensure reimbursement
